## No Opposition Seen To Arnall As OPS Chief

Ex-Governor Leaves \$25,000 Post For "Thankless" Price Job

WASHINGTON—(AP) — Ellis Arnall, Georgia's ex-governor, today was headed for a big new job as the nation's price boss—a job he labelled "tough, unpopular and thankless."

But someone has got to do it, Arnall said.

President Truman sent to the Senate yesterday the nomination of the 44-year-old southerner to be director of the Office of Price Stabilization.

Several Senators predicted little or no opposition to Arnall's confirmation for the \$16,000 a year post. Arnall would succeed

Ellis Arnall

Michael V. DiSalle who is quitting Feb. 15 to seek the Democratic nomination for the U. S. Senate in Ohio.

Hearings Planned Tuesday

Chairman Maybank (D-SC) of the Senate Banking Committee tentatively scheduled hearings on Arnall's nomination next Tuesday.

Friends of Arnall said they took his acceptance of the OPS job to mean that he is convinced, in his own mind at least, that Truman will seek re-election. They represented him as being unwilling to accept "an unpopular job" for a short time.

In Atlanta, Arnall told newsmen:

"I have no extraordinary ability, am no economist and know of no magic formula which will solve our price problem."

But, he added that he is willing to undertake the difficult job of price chief to help "preserve our economic stability and our nation's security."

Quits \$25,000 Post

To accept the post, Arnall will take leave of absence from his \$25,000-a-year job as president of the Society of Independent Motion Picture Producers, from his law practice in Atlanta and from his presidency of an insurance firm.

Arnall was governor of his state from 1943 to 1947. He instituted a number of reforms in Georgia, including revision of its pardon and parole system and abolishment of its infamous chain gangs.

## Reds Mass At Border, German Leader Warns

BONN, Germany (AP) — Chancellor Konrad Adenauer warned the West German people today that a vast Russian military machine is pressed against the Elbe and can march against West Europe "within 24 hours" if the Kremlin gives the signal.

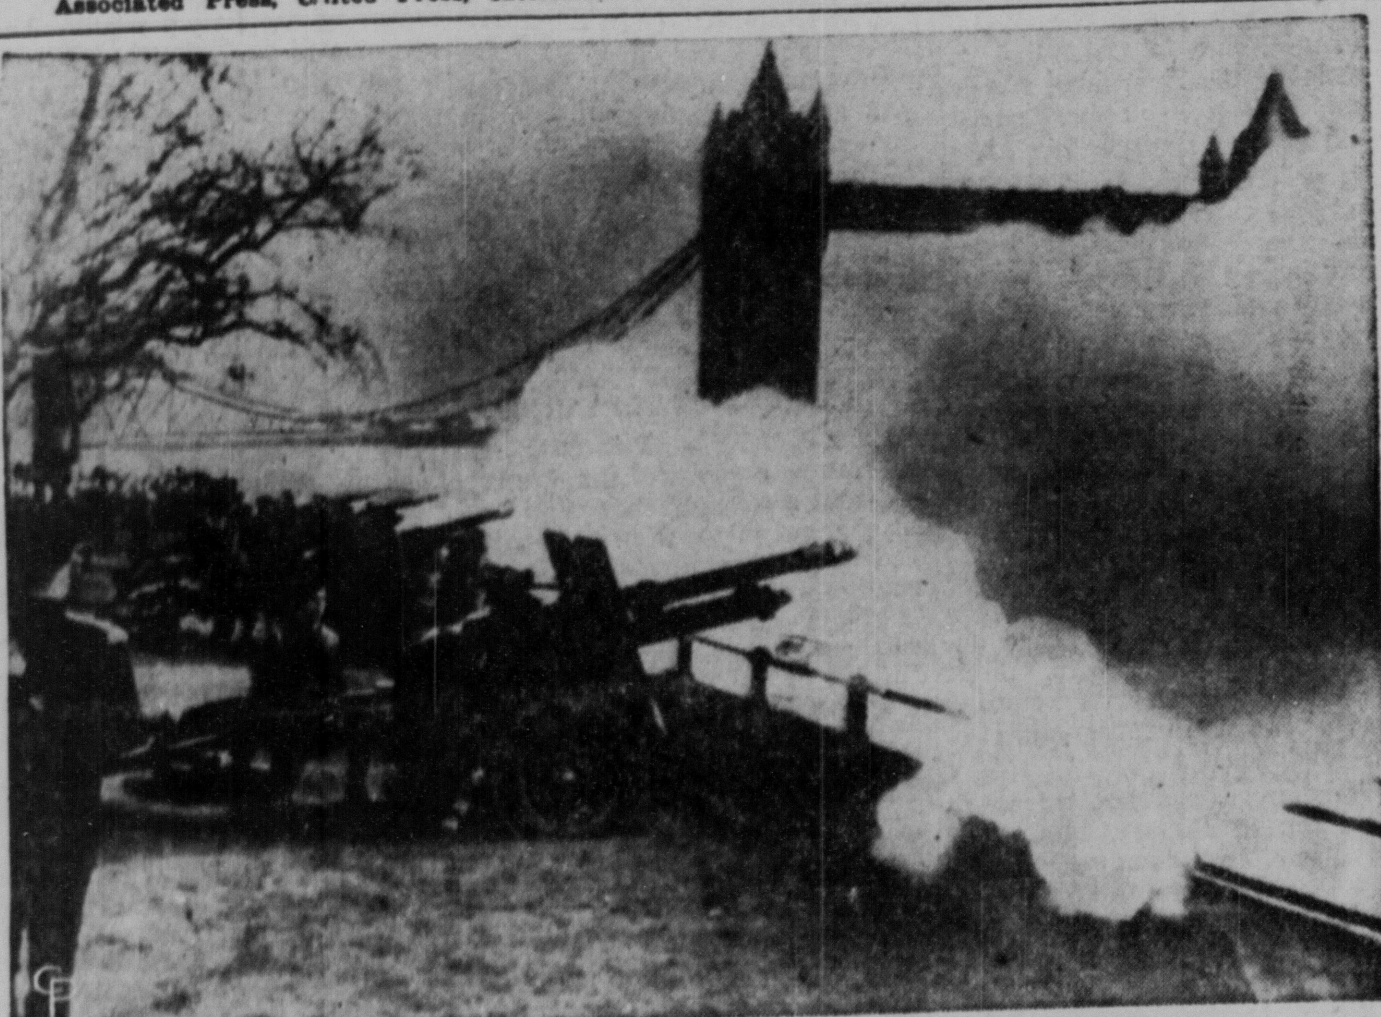

Interrupting debate on his proposal to raise 12 German divisions for the European army, Adenauer said the first shock of a Russian attack would have to be borne by American, British, and French forces in West Germany but the Germans could not expect the Allied troops to do everything for them.

German soldiers, he declared, are essential to counter-balance the Soviet power.

## U.N. Planes Hit Red Rail Lines

Reds Bicker On POW Trade At Truce Talks

SEOUL (AP) — Allied warplanes roared through blue skies today and hammered Communist rail lines.

The Fifth Air Force said the speedy fighter-bombers blasted 30 cuts by noon in North Korean rail lines linking the main Red supply points.

Swept-wing U. S. Sabre jets flying protective cover spotted 10 Communist jets in MIG alley. But the Red pilots refused to fight.

United Nations foot soldiers welcomed warmer weather. Temperatures climbed to 32 degrees at points which had sub-zero weather for several days.

Red Hills Raided

Yesterday Allies stormed across a frozen river south of the Panmunjom truce talks site and raided two Red hills.

At the truce talks Allied spokesmen said today the Communists apparently plan to gear delivery of war prisoners to the allied delivery rate.

The U.N. communique said there were indications that the Reds "will no longer adhere to their previous offer of completing the return of the U.N. prisoners within 30 days after the armistice."

Instead, the Communists said the two-month time limit included in their prisoner exchange proposal of last Sunday applies equally to both sides.

Col. George W. Hickman told newsmen, "they don't want to give all of their's back until we give them all of ours."

To Hear U.N. Answer

Armistice negotiators will hold a session tomorrow to hear the Allies' answer to a Communist proposal for a high level conference to settle all Asian questions related to peace in Korea.

Some observers said they expect the U.N. reply to include a counterproposal.

The Reds' three-point plan of conferred Wednesday calls for a conference within three months after an armistice is signed to consider withdrawal of foreign troops from Korea, peaceful settlement of the Korean question and other questions relating to the Korean problem.

Cars driven by Clyde W. Densmore of MC 1, Salem and L. M. Burton of the Goshen Rd. collided at 3:45 p.m. Thursday at the intersection of Penn and E. Pershing Streets, causing considerable damage to each auto.

Merle Miller of 814 Arch St. told police that as he was driving south on Sharp St. at 2:15 p.m. yesterday his car slid on ice and collided with an auto operated by Dan Butch of Leetonia. Miller's car was slightly damaged.

## Truman Denies Charges Aimed At Cabinet Men

WASHINGTON (AP) — President Truman insists that neither Secretary of Agriculture Brannan nor Secretary of the Treasury Snyder can be blamed for scandals which have hit their departments.

He stoutly defended both cabinet members at his news conference yesterday.

The President disputed charges by Senator Williams (R-DeI) that Snyder has not been aggressive enough in cleaning up the Internal Revenue Bureau.

Williams said in a Senate speech he knew of no evidence that Snyder had brought charges against any bureau officials who might have been guilty of conducting corruption. He said Snyder must shoulder responsibility for "disgraceful conditions" in the bureau.

The President asked how much more aggressive the Senator would like Snyder to be. He said those involved in the income tax scandal have been named and removed from office. He added that some have been indicted and one tried and convicted.

Mr. Truman told newsmen that Brannan could not be blamed for the multi-million dollar shortages reported in government grain reserves. He said—without naming anyone—that these grain fellows had been doing the stealing.

The President brought up the subject himself, commenting on reports that the government may lose around five million dollars in grain diverted from commercial warehouses, mostly for speculation.

## Truman Seen As Not In Race

Taft Refutes Claims Of Ike's Popularity

(By The Associated Press) President Truman's news conference comment that he's going to let the political river take its course has been interpreted by some of his closest friends as an indication he does not plan to run again.

Jack Bell, Associated Press political reporter, says he has learned from a close associate of the President that Truman's inner circle expects he will step aside at the proper time and name his choice of a successor—barring unforeseen developments.

Taft Believed Nominee

The President is said to believe the Republicans will nominate Senator Taft of Ohio, and that the Democrats have a good chance to defeat him in November's election.

His "political river" remark yesterday was seen as a sign he is giving other Democrats a chance to show what they can do—and that he may throw his support to the strongest, provided it isn't Senator Kefauver of Tennessee.

Elsewhere on the political front:

1. Taft said in a radio address: "Eisenhower's popularity isn't as widespread as some people seem to think."

2. Senator Lodge (R-Mass), manager of Gen. Dwight D. Eisenhower's presidential campaign said in New York: "Public sentiment favors Eisenhower overwhelmingly. If the sentiment can be translated into delegates at the convention, Eisenhower will be nominated on the first ballot."

3. William L. Pfeiffer, New York state GOP chairman and Eisenhower supporter, said in Washington: "Eisenhower will get all of New York's 96 convention votes."

4. Taft backers: "We will get up to 20 New York votes."

Taft told his radio audience that if he gets four or five of the 14 New Hampshire delegates to the GOP convention, it will deflate claims Eisenhower has great popular appeal even if the general gets the rest.

Senator Duff (R-Pa), an Eisenhower man, promptly called this "poppycock." He said Taft was fixing himself for a fall in the March primary, and challenged him to fight for a majority of the delegates—not just four or five.

Harold E. Stassen, GOP candidate, said in a Baltimore speech his party should take the lead in developing harmony between labor and business.

## Continued Air Blows In Korea War Urged

TOKYO (AP) — Lt. Gen. Otto P. Weyland says if Allied air strikes are halted the Reds could mount a tremendous jet armada from North Korean airfields within 30 days.

The Far East Air Forces commander said in an interview yesterday Communists have 15 good airfields which could be put into shape without much engineering effort.

All are located near supply points such as railroads or seaports, he added.

The Reds have insisted on the right to rebuild airfields during an armistice.

Weyland and his Air Force generals opposed this—until Allied negotiators offered to compromise and let the Reds rebuild some airfields for civilian use only.

Then Weyland and the others shut up.

But the general pointed out today that commercial airfields could be converted to military airbases simply by supplying them with gas, oil and bombs.

Then—if the Reds broke the truce—United Nations ground forces in Korea would be faced with a real threat from the air for the first time.

Says Enforcement Up To Police

## State To Confer With Judge On Liquor Sales Complaint

Juvenile Judge Louis Tobin's promised crackdown on tavern owners who sell to minors stirred the State Department of Liquor Control and brought him a letter from the boss.

Anthony A. Rutkowski, chief of investigation and enforcement, expressed surprise at the judge's investigation and put responsibility for enforcement on local police.

"Please be advised," Rutkowski wrote, "that I have no knowledge that conditions in Columbiana County were of such nature that it required a public statement by you on that matter."

He said he has instructed the Canton district enforcement office to send an investigator to confer with Tobin and to take "strong law enforcement action against all violators."

Judge Tobin's charge of laxity, fired at "officers of the law," made the state department duck.

Rutkowski said he hoped that statement didn't apply to the state agents.

Police Responsibility "Major responsibility for enforcing liquor laws rests with local police," he said, "and the enforcement division staff is entirely inadequate to cope with the problem throughout the state."

A two-week grace period Judge Tobin allowed tavern owners to change their policy will expire Saturday, Feb. 16. Infractions noted after that by Juvenile Court will get the owners into trouble.

They'll be charged with contributing to the delinquency of children. Conviction will bring the maximum penalty—a \$1,000 fine and a year in jail, the judge warned.

A house-to-house canvass by Girl Scouts collected \$531.85 to ward the drive, Firestone's report shows. A Jaycee collection during the East Liverpool-Salem basketball game brought in \$33.07. A large contribution of \$491.05 was turned over to the drive from collections in local theaters, Firestone said.

The balance was received through individual contributions and donations of clubs, unions, church groups, manufacturers, merchants and civic organizations, Firestone said.

Firestone expressed his appreciation of all who contributed work or money to make the drive a success.

## English Pay Last Respects To King

SANDRINGHAM, Eng. (AP)—Senior Royal servants tiptoed past the candlelit bier of King George VI today, paying last respects to their dead sovereign.

On the bier in a dimly lit downstairs bedroom of Sandringham House was the plain oak coffin. In it was the King's body, clad in the uniform of an admiral of the fleet.

Of all the uniforms he wore, it was the one he loved best, symbolic of his long association with the naval service in which he served under fire at the battle of Jutland.

Late today, after Queen Elizabeth II drives from London and pays homage to her father, the body will be carried 200 yards to the little 18th century Royal Chapel of St. Mary Magdalene. There it will be guarded by the eight gamekeepers and beaters who served the king longest.

At the chapel the King's people will take their last leave of him.

There will be a short service in the chapel Monday. Then the coffin will be placed on a gun carriage and a guard of honor of 20 grenadiers will draw the cortege slowly down the two-mile-long drive to the railway station.

By train the coffin will travel to London to lie in state at Westminster Hall, in the palace of Westminster.

Funeral for the King will be held next Friday at Windsor Castle.

## Promises Reign Will Continue Father's Work

Royal Couple Leave To View Dead King In Sandringham House

LONDON (AP)—Young Elizabeth II humbly promised today to "always work as my father did" for the happiness of her people and was proclaimed queen of the British realm, territories, and commonwealth. Then she left London to go to the bier of her father, King George VI.

A triple fanfare of trumpets signalled the accession of a new queen to packed thousands in a ceremony dating back to the days of chivalry in front of historic St. James's Palace.

National Anthem Sung

As a medieval-clad figure finished reading the proclamation from the balcony at 11 a.m. the sombre thousands, in mourning for the late King George VI, stood at attention and sang the majestic national anthem—now "God Save The Queen."

Artillery salutes boomed, and a clattering pageant-like procession of heralds spread the news.

In a moving little speech to her councillors at the accession ceremony a few minutes before, the 25-year-old queen said:

"My heart is too full for me to say more to you today than that I shall always work, as my father did throughout his reign, to uphold constitutional government and to advance the happiness and prosperity of my people, spread as they are all the world over . . . I pray that God will help me to discharge worthily this heavy task that has been laid upon me so early in my life."

Thus began the reign of the second "Good Queen Bess."

Leave For Sandringham

Then she and her 30-year-old husband, the Duke of Edinburgh left Clarence House, their home, for the 130-mile trip to Sandringham to visit for the first time the bier of her father whose death early Wednesday called her back 4,000 miles from East Africa and a royal tour.

As the royal limousine rolled through the palace gates the young queen smiled for the first time since her return and waved to a waiting crowd.

Bearded Sir George Bell, 50, year-old garter king-of-arms, dressed in medieval costume, read the proclamation of the accession council from the balcony of St. James's. It said:

"Whereas it hath pleased Almighty God to call to His mercy our late sovereign Lord King George VI of blessed and glorious memory, by whose decease the crown is solely and rightfully come to the high and mighty Princess Elizabeth Alexandra Mary:

"We therefore lords spiritual and temporal of this realm being here assisted with these his late majesty's privy council . . . do now hereby with one voice and consent of tongue and heart publish and proclaim that the high and mighty Princess Elizabeth Alexandra Mary is now by the death of our late sovereign of happy memory become Queen Elizabeth II by grace of God, queen of this realm and of her other realms and territories . . . beseeching God, by whom kings and queens do reign, to bless the royal princess, Elizabeth II, with long and happy years to reign over us."

"God Save The Queen."

**40-Year-Old Road Is Being Abandoned**

A 40-year-old brick road run-ning from Route 30 to the County Home is being lifted this week, County Engineer Charles O. Snyder announced.

The 10-foot-wide strip was laid in 1912 and was included later in the blacktop road connecting Route 30 and Route 122.

Blacktop will be applied this spring to the torn-up section—approximately three-fifths of a mile, Snyder said.

The bricks won't go to waste, Snyder said they'll be hacked at the county garage in Lisbon for future maintenance jobs.

COLUMBIANA—With resources of \$1,556,043.94 at the close of business Dec. 31, the Home Savings & Loan Co. of Columbiana made a gain last year of \$155,000, it was revealed at the annual meeting of stockholders Tuesday evening, and the company paid a 6 per cent dividend Dec. 31, one-half per cent more than a year previous. Its volume of business reflected the continued substantial growth of Columbiana.

All the directors and officers of the company were re-elected. They are: S. S. Weaver, president; E. T. Coyle, first vice president; Clarence Shontz, second vice president; G. G. Patchen, secretary and attorney; Marie Lundgren, treasurer; Erma Bevington, assistant treasurer and bookkeeper.

MRS. WICK FRY of 134 Union St. was crossing the street to the home of a neighbor at 6:45 p.m. Wednesday when she was struck by a car in which Harold Duvall was driving east. Duvall swerved his car up over the curb to avoid the accident and was able to stop almost simultaneously with the impact. Mrs. Fry complained of her right side and

**HIGH AND DRY**—The meandering Missouri river played a trick on the engineers and made this \$1,970,000 bridge an object of controversy. The river wandered away from the channel that was to have been crossed by the bridge between Decatur and Onawa, Ia., rendering it useless. Now, Army engineers say they have no money to steer the river back to its normal channel, and residents of the area are waiting impatiently for some action to get the river back under the bridge.

chest and was taken to Salem City Hospital for observation. Mr. and Mrs. Fry had everything ready to leave for Florida yesterday morning and she was taking a couple of house plants to the home of Mrs. Charles Rapp across the street. The morning they were to have started a week previous, they were informed of the death of John J. Lewis of Salem, a nephew of Mrs. Fry.

**THE HOWARD** Construction Co. of Canfield is proceeding with its contract for the relocation of Route 46 from a point just beyond the stone quarry ravine into Columbiana, a distance of about a mile. In accordance with a slight change in the plans, the barn on the Harry Ritz premises, which stood directly in the path of the new route where it will leave the present highway, is being moved northeast instead of northwest of the new site of the residence, and will front on the New Buffalo Rd. instead of Route 46. The Ritz property constitutes the angle formed by the junction of Route 46 and the New Buffalo Rd. A deep fill is being made to carry the new highway 20 feet above the ravine in which Indian Creek will be spanned by a culvert.

Rev. Carl Hanks, superintendent of the Wadsworth Nazarene Church district, former pastor of the Columbiana church, will conclude at 7:30 p.m. today his series of sermons in observance of Youth Week by the Columbiana church.

The Columbiana Music Study Club will meet at the home of Mrs. Paul McNab, 328 W. Park Ave., at 8 p.m. next Wednesday, when election of officers will take place. "American Orchestras" will be the topic for the evening. Miss Ruth Warrick will be associate hostess.

The Past Noble Grands' Club of Pandora Rebekah Lodge will meet at 8 p.m. next Monday.

The Queen Esther Class of Grace Evangelical and Reformed Church will meet at the home of Mrs. Ernest Gustafson, Union St. Ext., at 8 p.m. Thursday, Feb. 21, when members are to take their tax stamps. Associate hostesses will be Mrs. Clayton Burkhardt and Mrs. Esther Edgerton.

3 Teen-Agers Killed  
In Train-Auto Crash

LEBANON, O. (AP)—Three teen-agers were killed last night as their automobile crashed into a Pennsylvania railroad train at a crossing on Ohio Road 741, three miles west of here.

A fourth youth, Donald Lynn Knoop, 18, of Mason, the driver of the car, was hurt critically and is in City Hospital at Hamilton.

Dr. M. H. Williams, Warren County coroner, identified the dead as Ted Smith of Hamilton; Bentley Hopper, also of Hamilton, and Lewis Reynolds, 16, of Mason.

State Highway Patrolmen said several railroad cars were derailed by the force of the collision. Officers were unable, however, to learn full details of the accident because of the Knoop youth's condition.

## Improving A Catastrophe

THE SAAR headache is thumping in Europe  
again, with Germans demanding the right  
to control that wealthy industrial area.

Germans are demanding many things  
right now—and if there weren't the soldiers'  
graves to testify to the contrary a non-Ger-  
man might conclude there had been a Ger-  
man victory in World War II.

Perhaps there was. It is a sobering  
thought.

German industrial resources and the vigor  
of the German people are coveted by both  
sides in the struggle to control Europe. Ger-  
mans have nothing but friends, though in  
World War II they had nothing but enemies.  
Like the Japanese, who also surrendered  
at the end of World War II, the Germans are  
so indispensable in the international balance  
of power they can wring concessions from  
their conquerors with ease.

In doing this they merely take advantage  
of something so unpleasant to admit it never  
is talked about—the fact the conquerors had  
no agreement about what they were trying to  
do and have no firm opinion about what they  
did do.

The war was fought for the sole purpose  
of keeping the Axis powers from winning it.  
The allies had no counter-purpose of their  
own. They are unable even to agree on the  
common terms of their survival in the post-  
war years and have turned in desperation to  
the suicidal expedient of re-arming their  
enemies.

## In The Pattern Of Korea

THE LEAST talked about, though probably  
the most thought about, problem in Wash-  
ington is the kind of war being fought in  
Korea.

On days when official reports are optimis-  
tic, the problem disappears. Everybody  
jumps to the conclusion that the Korean sit-  
uation soon will be cleaned up.

But on the more frequent days when of-  
ficial reports are gloomy, it is easy to believe  
the Korean war is going to drag on indefin-  
itely—and that is the problem.

A half-truth such as exists now would  
demand the presence of huge numbers of  
American troops. It would keep in front of  
military planners the tempting possibility of  
bringing things to a conclusion with an all-  
out war. It would be a constant embarrass-  
ment to political authority and a source of  
popular dissatisfaction.

But it would be a compromise between  
the hard choice of all-out war and all-out  
surrender. It would rob the Chinese Reds of  
victory without spreading the war. Whether  
or not the United States would be willing to  
maintain a large and costly garrison in Korea  
is a question that cannot be answered now.

It may have to be answered within the  
next few years if the negotiations at Panmun-  
jom do not move off dead center in the next  
30 days.

## Decency Is No Handicap

IT CONTINUES to be interesting that the  
payment of \$120,000 in fines to obtain the  
release of four U.S. airmen forced down in  
Hungary after losing their way is resented by  
critics of the government.

It is interesting because if any of the air-  
men had been related to the critics there  
would be no criticism. It is a feeble attempt  
to make an academic argument out of a mat-  
ter which was highly personal at the time—  
and left no room for abstract argument.

If the United States could obtain the re-  
lease and safe delivery of its fighting men  
held prisoner in the Korean war for \$30,000  
apiece, would it hesitate? Or would it let  
itself get embroiled in an argument over  
whether or not the Reds might be corrupted  
by having money given to them?

Fortunately, the decency shown in the  
instance of the four airmen is proving to be  
no handicap in letting Hungary know how the  
United States feels about seizure of its nation-  
als and their conviction in trumped-up charges  
of being mixed up in espionage. Henceforth,  
the government of Hungary is to be treated  
as what it obviously considers itself to be—  
an enemy.

At a wedding in Massachusetts friends  
handcuffed the groom. Nice training.

More and more people are collecting rare  
coins, says a numismatist. Lots of them work  
in the Internal Revenue Department.

Some of the folks who figure they don't  
get everything that's coming to them can con-  
sider themselves lucky.

There's nothing like an evening at home  
with naughty kids to make a father wish he  
weren't.

School teachers set a nice example by  
making little things count.

## Taft-Lewis Tiff

By FETER EDSON

## Clearing Up Points In That Word Battle

SEN. Robert A. Taft of Ohio,  
candidate for the Republi-  
can presidential nomination, has  
asked for a private huddle with  
the United Mine Workers' Presi-  
dent John L. Lewis.

This is one result of their little  
spat over Taft-Hartley law in-  
terpretation before Sen. Mat-  
thew Neely's Labor subcommittee  
on mine safety.

There were no microphones  
around to record what Taft said  
to Lewis when the rather heat-  
ed session was over.

But Lewis later gave his press  
assistant, Justin McCarthy, a fill-  
in on this final scene of what  
may now become known as the  
Taft-Lewis act.

Taft walked over to where  
Lewis was sitting and extended  
his hand. Lewis rose and took it  
and they shook.

Taft assured Lewis there was  
nothing personal in what he had  
said to the mine leader.

Lewis in reply said he admired  
Taft personally but that he had  
no understanding of the labor  
question and the problems of the  
American working people.

Then Taft said he'd like to  
talk it over with Lewis, repeat-  
ing the request he had made pre-  
viously for a conference. That  
ended the exchange. It was all  
over in 30 seconds.

Senator Taft is having a hard  
time convincing union labor  
leaders that he is the working  
man's friend, not his enemy.  
This has been true ever since  
passage of the Taft-Hartley law.

It is inconceivable that John  
L. Lewis will ever come out with  
an endorsement of Senator Taft  
for the presidency, no matter  
what is said when the two men  
hold their private meeting.

If President Truman is the  
Democratic nominee, Lewis is  
expected to put his usual plague  
on both their houses and stay out  
of the campaign as he did in 1948.

LEWIS REALLY didn't let  
himself go in his exchange with  
Taft before the Neely subcom-  
mittee. Senator Taft has indicat-  
ed that he will support what  
Lewis wants in this instance.  
"I am quite willing to go along

with the law to improve these  
conditions," Senator Taft testi-  
fied. "I know it is difficult to get  
these safety things put in. I am  
for putting them in."

With Taft thus openly support-  
ing federal mine safety enforce-  
ment that Lewis wanted, the  
miners' leader didn't want to  
cross verbs and adjectives with  
the senator too vigorously.

There was one part of the in-  
terchange, however, which  
wasn't fully reported and its  
fragments were widely misun-  
derstood.

This came after Lewis had  
complained that in one case  
where a mine had been closed  
down when safety recommenda-  
tions had not been carried out,  
the operating coal company had  
sued the United Mine Workers'  
Union for \$750,000 damages un-  
der the Taft-Hartley act.

"MR. LEWIS," commented  
Senator Taft, "I went to Harvard  
Law School."

"One of the remarks I remem-  
ber Mr. Warren making—and he  
was professor of law—was that  
you could sue the Bishop of Bos-  
ton for bastardy, but you could  
not recover."

All he meant by it, as he said  
later on, was, "The mere fact  
that a man brings a suit does not  
mean anything for my money."

(The expression Mr. Taft re-  
ferred to is in rather common  
use among law students, as a  
quick and pat answer to the  
question: "Can such-and-such a  
lawsuit be initiated?")

Wire news services reported  
this quote accurately. Some pa-  
pers edited it out as being unfit  
to print.

Radio newscasters muddled up  
the record by saying that the lan-  
guage was unsuitable for broad-  
casting, which merely made  
everyone curious on what hap-  
pened.

Some of the scandal sheets  
and rumor mongers opposed to  
Senator Taft are now picking up  
the quote as being original with  
Senator Taft, and not attribut-  
ing it to his old law professor.

This is the way the campaign  
whispering stories get started by  
misrepresentation.

## Sleepy Time

By TRUMAN TWILL

ONE OF the pure delights of be-  
ing in a racket like this where  
things are not supposed to be  
taken seriously is stuff that comes  
in plain envelopes, to avert em-  
barrassment.

Today's plain envelope bore a  
marked paragraph from a well-  
known magazine about a prob-  
lem in the general domain. A  
trade magazine in the tailoring  
trade in England, it's reported,  
has told its readers how to keep  
their nightshirts from creeping up.

"Put your garters on upside  
down," it says, "and connect the  
fasteners with the hem."

The suggestion is so ridiculous  
that the English publication must  
have been writing with its pencil  
in its cheek. But the spoofing, if  
that's what it is, reopens a sub-  
ject which has been dealt with  
here before—garments for bed.

After all this time, nothing  
suitable has been provided for  
doping off, with the exception of  
those cover-all things with built-  
in feet that are made primarily  
for children. Consequently,  
grownups who wear them—and  
some grownups actually do wear  
them—feel silly.

They feel especially silly if  
someone sees them, which is the  
hub of the whole nightwear prob-  
lem—the possibility of being  
seen.

In a flossy publication of cur-  
rent date a nightgown selling for  
more than \$200 is shown on a  
shapely lady. This obviously is  
not the sort of thing a woman  
would keep on hand for utilitar-  
ian use—no more so than a man  
would think of dressing up in a  
pair of flossy pajamas for plain  
comfort. Yet it's for sure a night-  
gown.

When it's a matter of plain  
comfort, there are few suitable  
night-time garments. Evidence  
that men, at least, are far from  
satisfied with what has been done  
in their behalf is the testimony of  
those who served in the armed  
forces that once they were away  
from home they habitually slept

in their underwear.

With the exception of the kind  
of pajamas which are closely knit  
and look and feel like old-fash-  
ioned longies, none of the sleep  
garments nominally designed for  
men can be sold on a basis of  
comfort. Even the supposedly  
utilitarian nightshirt—the kind  
that might be kept at knee-level  
by tethering it to an upside-down  
garter—is a joke.

That garter trick brings to  
mind a story that Mrs. T. likes to  
tell—about the night she came  
home after her flu-ridden hus-  
band was fast asleep and clipped  
the coverlid in place with a de-  
vice consisting of a clothespin on  
the end of a piece of elastic an-  
chored under the mattress with a  
piece of board.

The next morning there was a  
great thrashing about and profane  
roaring—as Mrs. T. tells the story  
—because dopey kept pushing the  
covers away from him and they  
kept snapping back while the  
alarm clock rang on and on. She  
says it was pretty funny. Maybe  
it was.

Be pretty funny if an eager  
beaver leaped out of bed in the  
a.m. and got hit in the eye with a  
garter, too. Ho, ho, and ha, ha.

Instead of playing jokes, why  
don't the big brains turn to and  
fix up things so a human being  
can sleep in comfort?

## It's That Last Straw That Bothers Mr. Hoover

## Exposing Communism For What It Is

By DAVID LAWRENCE

THERE'S more news about  
what's going on in the world  
today in a book which I have  
just finished reading than in  
most of the press dispatches of  
the hour.

The book explains the methods  
by which the Communist regime  
in Moscow infiltrates free gov-  
ernments and free peoples every-  
where. It tells how Communists  
operate inside the United States.  
It tells how well-intentioned  
liberals are often misled into  
joining movements that are Com-  
munist inspired. It tells how  
picket lines are formed for de-  
monstration purposes and how  
collective-bargaining elections are  
sometimes influenced for Com-  
munist purposes.

This book is authentic. For it is  
the work of a man who spent nine  
years of his life inside the Com-  
munist ranks in this country  
while pursuing a normal career  
in a business office in Boston. He  
reported almost daily to the Fed-  
eral Bureau of Investigation,  
whose agent he was throughout  
almost his entire experience with  
the Communists. His work is so  
accurate a portrayal of Commu-  
nist behavior that J. Edgar  
Hoover, director of the FBI, has  
endorsed its author publicly  
with the statement that he "has  
performed an outstanding patri-  
otic duty in his fearless presen-  
tation of facts."

THE BOOK should be read by  
everyone who wants to under-  
stand the truth about Communist  
conspiracies in this and other  
countries. It ought to be read by  
everybody in the British Foreign  
Office and in the State Depart-  
ment in this country. It ought  
to be read by government offi-  
cials everywhere who are face  
to face with the harassments of  
Communist infiltration.

Unlike other books by con-  
fessed spies, its material was  
placed in the hands of the FBI  
contemporaneously with the un-  
folding of the events described.

It corroborates in many partic-  
ulars the things which, in their  
books, Louis Budenz, Elizabeth  
Bentley, Whittaker Chambers,  
and others confessed ex-Comm-  
unists have told the public about  
Communist methods and prac-  
tices. But it has the advantage of  
having been subject to check day  
by day as the incidents were de-  
veloping so that names and places  
and Communist deceptions are  
documented beyond peradventure  
of a doubt. The 11 Communists  
convicted before Judge Medina's  
court in 1950 were tried on some  
of the same evidence recited in  
the book.

ITS TITLE IS "I Led Three  
Lives" and it was written by  
Herbert A. Philbrick, who in  
1940 drifted into a youth move-  
ment in Boston in which he sin-  
cerely believed only to find it  
was being taken over by the  
Communists. In anger, he re-  
ported to the FBI what he learned.  
He was encouraged to stay on  
and play the part of an active  
Communist. In this way he was  
admitted to the inner circles of  
the party and kept the American  
government informed of what  
was going on. It was a nine-  
year strain of unparalleled sac-  
rifice. Mr. Philbrick says of the  
"professional" Communist:

"He is neither a sheep nor a  
dupe. He knows precisely and ex-  
actly what he is doing. He be-  
lieves in science and materialism  
rather than in ideals and emotion.  
The latter are merely tools  
for him to use on others, and he  
uses these tools with great skill.

"He is specially trained to be  
all things to all men. In order  
to achieve maximum success, he  
carefully cultivates the proper  
vener to conceal his motives and  
intent. Thus the most highly  
skilled—and the most dangerous  
—Communist is often a man of  
charm, wit, social standing, good  
manners, executive ability, bril-

liance, and achievement. Cer-  
tainly he will not carry a dagger  
in his teeth, wear a long black  
coat, or convey the slightest hint  
of conspiracy. Thus he plans not  
only to escape detection, but he  
hopes that gullible Americans,  
even when faced with cold facts,  
will insist 'why, he couldn't pos-  
sibly be a Communist—he's too  
nice (or smart, or handsome)  
a guy.'

"Therein lies the reason why  
so many inherently loyal citizens,  
evidently unwilling to think evil  
of any man, are misled into sym-  
pathy for Communists as well  
as their fellow travellers and sup-  
posedly worthy causes."

THE BOOK, in effect, tells why  
a Communist can get up before a  
congressional committee and  
swear under oath that he isn't a  
Communist and never has been.  
It makes understandable why  
Communist Russia, without com-  
mitting a regiment of soldiers to  
a fighting front in Britain, in  
France, in Italy, in Iran, in  
Egypt, in Tunisia, and how—for  
the time being, anyway—it has  
captured control of 800,000,000  
people.

Excerpts from this book, which  
is published by the McGraw-Hill  
Book company, have already ap-  
peared in many newspapers, but  
the entire work is well worth  
reading and rereading. For if lib-  
erty-loving Americans, liberals  
and conservatives alike, took to  
heart the story Herbert Phil-  
brick has told as an agent of the  
United States government en-  
gaged in counterespionage work,  
it could profoundly affect the at-  
titudes of persons inside and  
outside of government who have  
an influence on national and in-  
ternational policy. It could be the  
book that wakes up America and  
perhaps the free world to the  
real menace of communism.

## Health To You

By EDWIN P. JORDAN, M. D.

## The Doctor Answers

OVER the years, there have  
probably been thousands of  
methods suggested for determin-  
ing the sex of a child before  
birth.

Q—Can doctors tell from the  
heartbeat of an unborn baby  
whether it is going to be a boy  
or girl?—A Reader.

A—No. It must be remembered  
that even guessing will be right  
about half the time. There is no  
method of determining the sex  
of the unborn child, which has  
stood up under scientific scru-  
tiny.

Q—Does using tweezers to pull  
out hairs on the chin promote  
hair growth on other parts of the  
face?—P.A.

A—This procedure may cause  
the hairs on the chin itself to  
come out thicker and more con-  
spicuous, but there is no reason  
to believe that it will promote  
growth on other parts of the  
face.

Q—I'm 29 years old and for the  
past six months have had a pain  
in my chest. The doctor found my  
heart and lungs o.k., but an X ray  
showed stones in the gallbladder.  
Do you believe this pain could be  
coming from these gall stones?  
—Mrs. M. C.

A—Yes.

Q—Please advise on the after-

effects of removal of the gall  
bladder. I had mine removed two  
years ago, shortly before my 77th  
birthday, and still do not feel  
well. There were supposed to be  
showed stones in the gallbladder.

—Mrs. F.B.F.

A—Recovery from an operation  
of this sort at such an age may  
be quite slow. You should not be  
discouraged and should stick by  
the diet which was probably  
given to you after the operation,  
and which most likely was low  
in fatty foodstuffs.

## BIBLE QUOTATION

When the righteous turneth  
from his righteousness, and com-  
mitteth iniquity, he shall even die  
thereby.—Ezekiel 33:18.

## THOUGHT FOR THE DAY

The covetous person lives as if  
the world were made altogether  
for him, and not he for the world.  
—South.

With only one-sixteenth of the  
earth's population, America owns  
46 per cent of the world's electric  
power, 48 per cent of its radios,  
54 per cent of its telephones, 59  
per cent of its steel capacity, 60  
per cent of its life insurance poli-  
cies, 85 per cent of its automobiles  
and 92 per cent of its modern  
bathtubs.

## Ghosts, Indians

By HAL BOYLE

## Every Politician Needs Some

WASHINGTON  
WHAT IS THE REAL SECRET of how to be  
a success in Washington?

Wilbur Peeble, the average American cit-  
izen, gives the answer in a letter to his wife  
about his one-man investi-  
gation of the government:

DEAR TRELIS MAE:  
Well, honey, I found  
out how you get to be a big  
shot here.

Getting elected or appoint-  
ed to an important job is just  
the first step. The real art  
is to hold the job.

And to do that you got  
to have ghosts and Indians.

As I get it, a ghost is a fellow you get to  
write all the speeches and public papers you  
would write yourself if you only had the time.  
But naturally you are too busy shaking hands  
and making friends.

An Indian is an information expert. He  
is the fellow who knows all the things about  
your job you would learn yourself if you just  
had time.

Let's say, for example, you are appointed  
Secretary of the Exterior. Three days later  
Rep. Headstrong decides to investigate you  
because:

1. Your wife snubbed his wife, or—
2. You forgot to invite him to a cocktail  
party, or—
3. Nobody else is investigating your de-  
partment that week, or—
4. He's up for re-election, and he has to  
get his name in the papers some way.

WELL, THE HOUSE votes him \$75,000 for  
the investigation, and Rep. Headstrong hires  
some ghosts to write speeches denouncing you  
and rents some Indians to dig up dirt about the  
job you're doing.

When you go into the committee hearing,  
he says:

"Let's get down to the real issue. Just  
why is the Department of the Exterior doing  
nothing in the matter of exports and imports  
of brooms to and from Czechoslovakia? An-  
swer—Yes or No?"

Well, if you don't have your own battery  
of ghosts and Indians ready—you are a gone  
Secretary of the Exterior.

But if you've got your Indian handy, he  
whispers the right answer to you, and you  
say:

"So long as I am secretary no red-tainted  
foreign brooms will be admitted to these  
shores, and none of our own fine clean Amer-  
ican-made brooms will be sent to politically  
polluted areas. Besides, we need 'em all to  
sweep out our own defense plants."

At this the spectators break into applause.  
After a month or two—during which you  
have collected \$10,000 from speeches and mag-  
azine articles written by your ghost—the in-  
vestigation collapses.

BUT IT HAS BEEN a big success all  
around. You have made a name as a patri-  
otic public servant, and Rep. Headstrong has  
decided to run for the Senate on his record  
as a fighter for clean government. The ghosts  
and Indians? They've been paid.

The only thing lost, Trellis Mae, is the  
taxpayers' \$75,000.

It seems a wasteful system to me, but a  
ghost I talked to said it was necessary to keep  
the statesmen from strangling in their own red  
tape.

"As a matter of fact us ghosts are now  
getting assistant ghosts and the Indians are  
getting assistant Indians," he said. "We have  
to—things are getting that complicated."

He said he felt ghosts were performing a  
public service in making politicians sound  
educated. He remarked the ghosting industry  
in America dated back to the days when  
Alexander Hamilton used to handpick ad-  
verbs for George Washington, who, he said,  
couldn't tell a dangling participle from a  
hangnail.

THAT MADE me mad, Trellis Mae.

"Well I have always thought Thomas Jef-  
ferson did a pretty fair job of writing the  
Declaration of Independence," I said. "And  
how about that little speech Abraham Lincoln  
scribbled down on an envelope all by himself  
on the way to Gettysburg?"

Well, he said, he would admit that either  
of them might have made a pretty fair ghost,  
and added:

"It is too bad Lincoln didn't have a new  
electric typewriter at Gettysburg. No telling  
what he might have written then!"

I'm beginning to think, Trellis Mae, that  
I'll never really understand Washington.

Your loving husband,  
Wilbur.

## County PTA Group Meeting Attracts 75

Seventy-five representatives of Parent-Teacher Associations attended the Founders Day program sponsored by the County PTA Council Thursday night at United Local School near New Garden.

Miss Lora Clark, supervisor of nurses for the County Health Department, and V. J. Ullman, superintendent of Lisbon schools, talked on the school health program. Ullman is chairman of the School Health Advisory Council.

A Founder's Day skit, written by Mrs. Rosemond Mattevi, of the United Local, was presented by the following cast: Mrs. Velma Cope and Mrs. Bernice Arter, of Lisbon, Mrs. Leroy Grimm, and Mrs. Mattevi of the United Local. William Dean of Unity, Emmett Hole of West and Carl Hinkle of Negley.

Rooms of the new school were opened for inspection with displays of artwork and study material. Council voted to drop sponsorship of the annual Idora Day outing for county students because of restrictions on bus transportation.

The nominating committee was elected and comprises Ullman, chairman, Hinkle and Carl Murray. Bylaws were approved for another four years. Council's spring institute has tentatively been set for May 8 at West Local school in East Rochester.

Mrs. Arter, president, presided. Mrs. Mary Widmer of Unity was program chairman.

# Methodist Women Hear Talk By Miss Elizabeth Hartman

MRS. HARRY LORIA presided at the meeting of the Women's Society of Christian Service of the Methodist Church in the church social room Wednesday afternoon. The society will cooperate with the Council of Church Women in the observance of the World Day of Prayer Feb. 29.

A box of used clothing will be sent to Miss Nellie Lewis for her work as a missionary nurse in India. Mrs. Loria requested that all groups keep a record of cards, calls and flowers until the end of the year.

"Workers Together With God" was the program topic of the day. It explained the contribution of deaconesses toward developing the church for the country's needs. A consideration of some of the rewards of deaconess work was discussed.

A playlet "Deaconess Myth" was presented by Mrs. O. A. Naragon, Mrs. Glen Whip and Mrs. Chester Cope. Miss Elizabeth Hartman, director of Christian Education of the Methodist Church, who is an ordained deaconess, answered questions and then spoke on "Why I Became a Deaconess." Even as a school girl she had a deep interest in that type of work but after graduation taught for a while before entering the Kansas City School for Deaconess Training.

There are two deaconess schools, one at Kansas City and one at Scarret. There are 842 deaconesses in the Methodist Church. Requirements for a deaconess are high but the training is excellent. Miss Hartman closed her talk by showing colored slides of life at deaconess school.

Group 4, with Mrs. Edward Brudner as chairman, served refreshments and a social period was enjoyed. The next meeting will be March 5 at the church.

# Quakers Meet Garfield Tonight, Face Louisville Saturday

## Leopards Have 7 Lettermen, 4-8 Record

Following tonight's game with Akron Garfield, the Salem Quakers will play host to Louisville's Leopards Saturday evening in the Salem High School gymnasium.

Coach John Cabas has named Jerry Ball, George Alek, Bill Brelih, Wayne Harris and Eddie Votaw as his starting five for tonight's contest in Akron. The Salem mentor said he expects to use Benny Roelen considerably as well as Jack Gottschling. Gottschling has shown much improvement in the past week's practice sessions and may be used at a guard position tonight.

The locals will be in quest of their seventh victory of the season tonight as well as their fourth straight triumph.

**THE LEOPARDS** have seven lettermen back from last year's squad but their record shows more losses than wins. Harold Paul, in his initial year at the head post at Louisville, has guided his squad to just four victories in twelve games.

The Louisville quintet is a tall outfit, having four six footers on the first five. Coach Paul indicated he wasn't sure of his starters but Ramsey Jones and Don McGinnis stands 6 foot 3 inches and is a senior.

## Additional Sport News On Page 11

Ginnis are slated to make up the starting forwards. Jones, a junior goes about 6 foot 3 inches while McGinnis stands 6 foot 3 inches and is a senior.

At guards are Art Lynch at 6 foot and Gil Snyder, the shortest man on the squad at 5 foot 9 inches. Both lads are seniors.

**HERB HEYARD**, 6 foot 5 inches, will open the game at the starting position. Heyard is a junior and promises to be trouble for Leopards opponents next season as well as in the current campaign.

Two other players who will probably see action against the Quakers are Jay McKarns and Dick Miller. McKarns is a junior at 6 foot 1 inch and Miller stands 5 foot 11 inches.

The Leopards fast break when it is possible and probably will meet the locals with a man-to-man defense.

**Layne's Comeback Halted Last Night**

BOSTON (AP)—Rex Layne, Salt Lake City heavyweight attempting a flistic comeback at the tender age of 23, today was convinced he had made a false start.

After being rudely checked last year by Rocky Marciano and ex-titlist Ezzard Charles, Layne took a long layoff and resumed action two weeks ago.

He warmed up by knocking out Bob Garner of Lexington, Ky., in three rounds in Salt Lake City, and then accepted an offer to tangle with Willie James of Boston, another comparative unknown, last night.

James, who had only 18 previous professional engagements, had little trouble gaining a unanimous 10-round decision over the wild-swinging and wide-open Layne, who was pudgy at 199 pounds. James, a full head taller, weighed only 84 pounds more.

James' counter punching damaged both of Layne's eyes and dropped him for a two-count in the ninth round.

## Reilly, Buckeye, McKinley Share Honors In Mickey McGuire Loop

A three-way deadlock for first place exists in the Mickey McGuire League at the end of the first round between Buckeye, Reilly and McKinley, the latter being the basketball champions for the past two years.

McKinley, expected to top the loop, received its lone defeat last Monday, Jan. 28, when Buckeye spilled them, 23-22. Under the direction of Ward Zeller for the past two years, McKinley had won 22 straight games and already had scored three wins this season when the Bucks pulled the upset.

The three teams hold records of 4-1. Buckeye led the loop offensively with 178 points and Reilly followed closely with 172 markers. McKinley, although tallying 124 points, heads the league in the defensive department with a mark of 85 points for their five opponents for the five games. Reilly has allowed 106 points against them and Buckeye 117.

Leading the individual scorers for the league's first round is Buckeye's Darrell Adams. Adams has a total of 57 markers for the five games, an average of almost 12 points per game.

Butch Platt of Reilly follows closely in the scoring department with 46 points while Larry Phyllis and Dan Weber rank third in the loop, each sporting 41 markers. Weber hails from Buckeye.

Phyllis plays for Fourth St. along with his younger brother, Freddie. Freddie is a fourth grader and a real hooper as proved against Prospect in their first game of the season when he and his brother totaled the team's entire score. However, they lost the game, 34-14.

The second round of play opens next week with two of the leaders, Buckeye and Reilly, meeting on the latter's floor on Monday. McKinley faces St. Paul on Tuesday and Fourth St. plays host to Prospect in the Wednesday affair.

The schedule for the second round is as follows: Monday, Feb. 11, Buckeye at Reilly; Tuesday, Feb. 12, McKinley at St. Paul; Wednesday, Feb. 13, Prospect at Fourth Street; Monday, Feb. 18, St. Paul at Fourth Street; Tuesday, Feb. 19, Reilly at McKinley; Wednesday, Feb. 20, Prospect at Buckeye; Monday, Feb. 25, St. Paul at Reilly; Tuesday, Feb. 26, Buckeye at Fourth Street; Wednesday, Feb. 27, Prospect at McKinley; Monday, March 3, McKinley at Buckeye; Tuesday, March 4, St. Paul at Prospect; Wednesday, March 5, Reilly at Fourth Street; Monday, March 10, Fourth Street at McKinley; Tuesday, March 11, Prospect at Reilly; Wednesday, March 12, Buckeye at St. Paul.

**Ewell Blackwell Enters Hospital, Is Improved**

TAMPA, Fla. (AP)—Ewell Blackwell, Cincinnati Reds pitcher, is in a hospital here but a doctor said his condition does not appear serious.

The doctor, who declined use of his name, said last night that Blackwell was taken to a hospital Wednesday with chills and fever but improved overnight. Diagnosis of his illness was not complete, the doctor reported.

**HERE'S HOW I feel about Doby**, said Hank. "He had an off-season, but he's a good ball player with great potentialities. Certainly we hope he can attain them—this year. If he does, he'll be well taken care of financially."

"I'm not worried. He'll sign," Mike Garcia, 20-game winner last season, has returned his contract unsigned.

## Aggies Lose; Bonnies Beat Murray State

NEW YORK (AP)—From all indications the Oklahoma Aggies are out of the running for the NCAA basketball title this year.

The team that was runner-up to Kansas State in the Western NCAA finals last year received probably a fatal blow to its 1952 hopes last night in losing to Tulsa 46-33. It was the first Tulsa victory over the Aggies in 11 years.

Meantime, unbeaten St. Bonaventure continued serenely on its way to its much-heralded meeting with Duquesne by whipping Murray State of Kentucky, 74-63. The Ducks and the Bonnies are the only major undefeated teams in the nation.

**DICK GROAT** helped Duke come from behind in the last quarter to beat William and Mary, 68-62, in the Southern Conference. Groat scored 11 of his 24 points in the rally that erased a nine-point Duke deficit.

Marquette, behind 37-31 at the half, rallied to upset Notre Dame, 57-50, the first time Marquette has beaten the Irish on the Notre Dame floor since Feb. 18, 1939.

**HOLY CROSS** spurred in the last quarter to beat Columbia, 85-80, in overtime. Columbia, led by Jack Molinas' 39 points, had led, 58-53, after three periods.

DePaul made it 7 straight by nipping Manhattan 66-65, in half of a Madison Square doubleheader. A free throw by Ronnie Feier-eisel in the last five seconds decided. In the other game NYU crushed Syracuse, 95-78 after trailing earlier in the fray.

## Ralph Kiner Will Ask For More Cash

PITTSBURGH (AP)—Ralph Kiner, the Pittsburgh Pirate left-fielder whose bombing home run bat makes the turnstiles click at Forbes Field, wants more money.

Kiner talked to the Pittsburgh Post-Gazette last night from his swanky new home in Palm Springs, Calif., and declared:

"I am going to ask for more money, and I don't expect to have any trouble getting it. I talked with John Galbreath (Pittsburgh rate president) at the World Series. We were pretty well agreed on what I'll receive in 1952."

Kiner, who reportedly has drawn down \$65,000 a year on a two year pact which expired last season, wouldn't indicate just how much of a raise he wants.

## Palmer Leads El Paso Open With Lusty 64

EL PASO, Tex. (AP)—Johnny Palmer, the Badin, N.C., tournament veteran, for whom the cash register hasn't been ringing much lately, set out at the head of the field in the \$10,000 El Paso Open's second 18-hole round today.

Palmer led with a seven-under-par 64 but his position was a trifle shaky even for the first round—which wasn't finished for nine players last night.

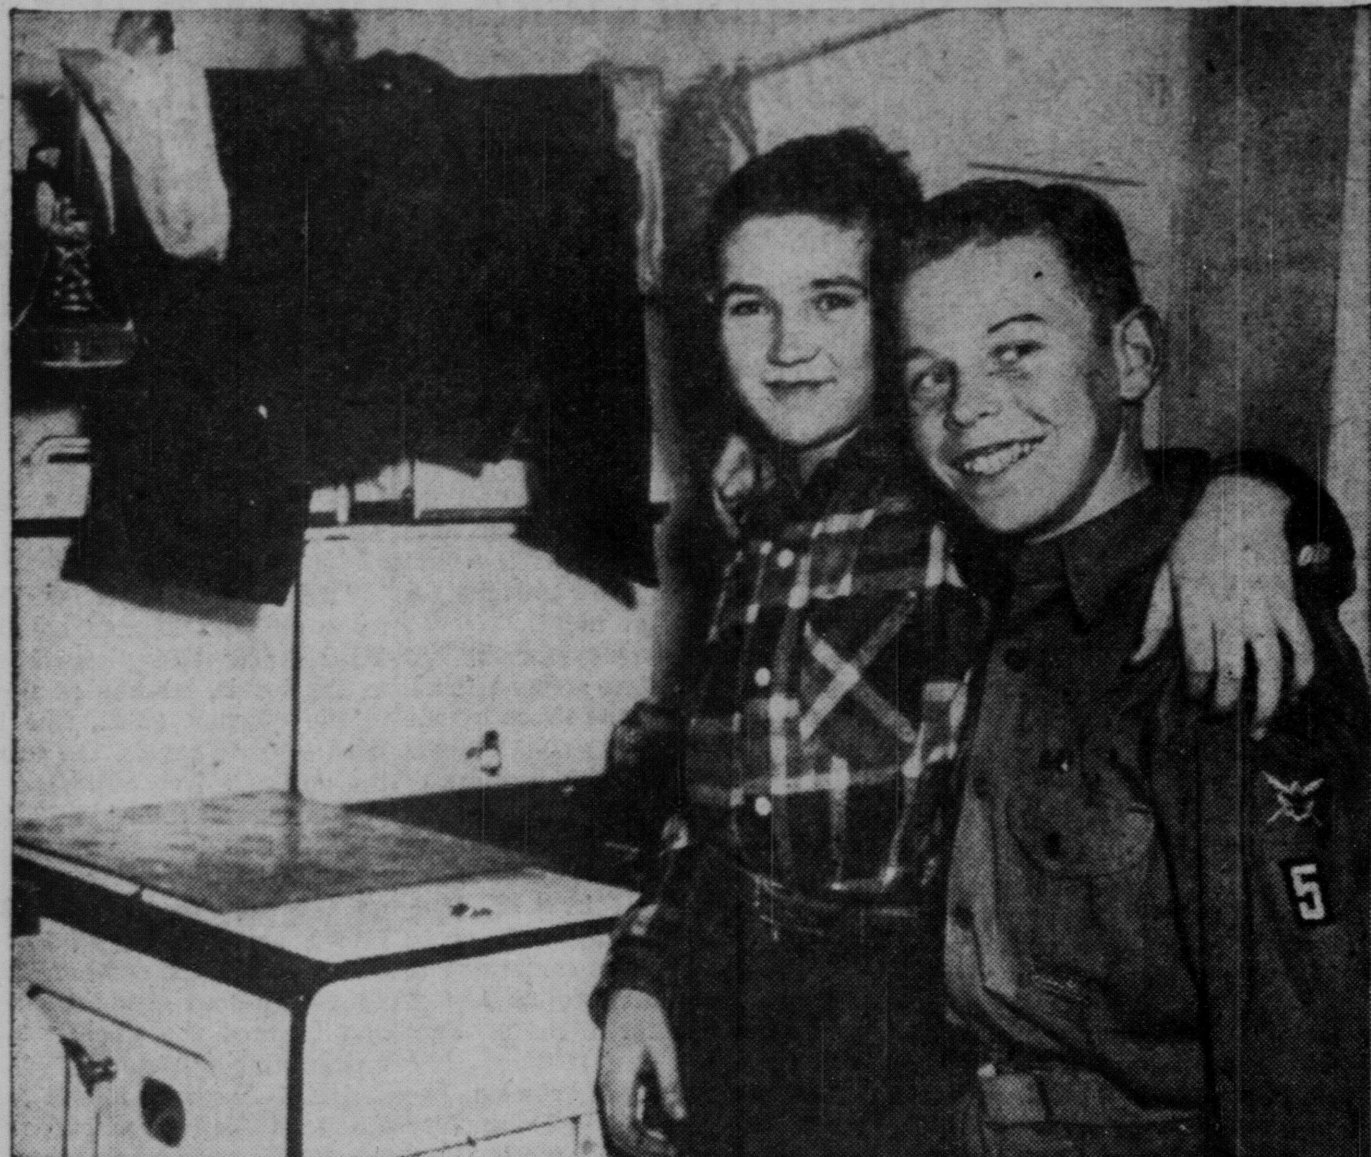

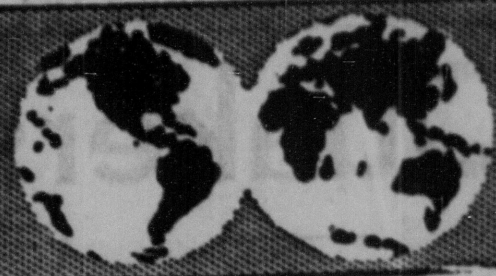

It was quite a day for the hot shots of the tournament trail. Par was bettered 34 times by the field which started as 141 players but had a half-dozen withdrawals.

Breathing on Palmer's neck was tall Cary Middlecoff of Memphis, Tenn., who did a 65. Middlecoff missed only one green and his putting was something to behold. He sank two 20-footers and one 15-footer in the brilliant collection.

In third place, a stroke behind Middlecoff, was Doug Ford of Harrison, N. Y., while Fred Hawkins of El Paso and that muscular man from Toledo, Ohio, Amateur Frank Stranahan, tied for fourth place with 67.

## UN WELCOME MAT IS OUT

**L**IKE A MAGNET, the new United Nations headquarters building in New York City is attracting many thousands of tourists who are curious to see how the UN is shaping their destinies. To accommodate these visitors from all over the world, experts are completing plans for underground parking space, spacious lobby and rest rooms and hundreds of seats in various council rooms. In the General Assembly meeting hall, 1,000 visitors can tune in on headphones and hear what is being discussed in English, French, Spanish, Russian or Chinese. The towering marble-and-glass-faced structure is hanging out a "business as usual during alterations" sign while inside its occupants are trying to sell world peace.

It doesn't matter to Johnny that he's rated a 3 to 1 underdog against fast-punching Chico Vejar of Stamford, Conn. The energetic Jersey gets the full network radio and television treatment for his 10 p.m. (EST) scrap.

OUR BOARDING HOUSE

With Major Hoople

MY NAME IS HURBUT HEMINGWAY AND I REPRESENT THE LOUVRE IN PARIS. I'M TOLD THAT A MR. GUMHORN WHO LIVES HERE HAS ONE OF NAPOLEON'S ORIGINAL VESTS. COULD I PLEASE SEE IT?

MR. GUMHORN IS OUT OF TOWN, BUT I GUESS HE'D LET YOU TAKE A PEEK AT IT FOR FREE. HE'S GOT EVERYTHING HERE FROM JULIUS CAESAR'S SANDALS TO THE WHISTLE OFF ROBERT FULTON'S FIRST STEAM-BOAT.

THIS MIGHT BE SOME NEW BUSINESS.

## State National Guard Given Practice Alert

COLUMBUS (AP)—A surprise practice state-wide alert for all army units of the Ohio National Guard was held last night.

Units were alerted from Columbus by radio announcements, telegrams, telephones and messengers. Brig. Gen. Julius Stark, assistant state adjutant general, said the alert was merely for practice.

The first since World War II, it was ordered by Second Army headquarters at Fort George Meade, Md., and did not include air units of the National Guard.

General Stark said the order was received "shortly after dinner" and that troops reported to armories and other assembly points throughout the state "very rapidly."

"We were merely checking to see if we have the means to notify them where and when to report," he said. He said he could not reveal for security reasons, the number of troops involved.

## Russia May Answer Massacre Charges

WASHINGTON (AP) — Chairman Madden (D-Ind.) said today the Russians may get a chance to answer charges before his special house committee that they massacred 10,000 Polish officers during World War II.

Madden told newsmen that he personally thought the committee should send an official letter to the Soviet embassy here offering to hear the Russian version. Moscow has laid the killings to the Germans.

Madden's suggestion has not yet been considered by the full committee.

The special group has concluded four days of open hearings on the massacres in Katyn forest, Russia, during late 1939 and early 1940. The hearings will be resumed in a week or 10 days.

Polish and American witnesses have testified that the Russians shot down their prisoners in an effort to destroy Poland's intelligentsia.

## Navy Devises Escape Capsule For Jet Planes

AKRON (AP) — The Navy is ready to test a new means of getting pilots safely out of rocketing supersonic airplanes.

The present method—an ejection seat—is satisfactory, only at speeds of less than 600 miles an hour and at altitudes of less than 45,000 feet.

The Navy says it has found a way to protect pilots from sledgehammer blows of air and temperatures as low as 65 degrees below zero while getting them out of faster planes.

The mechanism is described as a parachute "capsule" which holds the pilot while he is dropping and will float if it lands on water.

To abandon his plane, the pilot pulls handles which retract his seat into the capsule, close clamshell doors and then fire the capsule into space. A barometric control opens a parachute when a safe altitude is reached. The chute is automatically released from the capsule at the landing.

Inside the pressurized capsule are an inflatable raft, oxygen equipment and—if necessary—a heating unit.

The Navy reports a full-scale model has been completed by Goodyear Aircraft Corp. It has not yet been test flown.

## Both Murder, Suicide Considered In Death

CLEVELAND (AP)—The coroner here agreed today that George W. Brantner of Youngstown was murdered, but Youngstown Police Chief Edward J. Allen said he still thought suicide was a "possibility."

Cuyahoga County Coroner S. R. Gerber was asked yesterday by the Mahoning County coroner David Belinky, if he thought Brantner's death was murder. Dr. Gerber, after studying pictures and a pathology report, said "Yes."

There is evidence the man was strangled with a necktie as well as beaten on the head with a hatchet, said Dr. Gerber.

Belinky already has ruled the death was a homicide. However, informed of Gerber's opinion last night, Police Chief Allen said:

"Of course, we're investigating the death as a murder. However, there still is a possibility of suicide. Two private physicians have told us that suicide is a possibility."

Brantner was found in his coal bin Jan. 28, his head hatched 100 times with a hatchet. The pathology report also stated there was a burn on his neck.
